

Welcome to Term 2

Te Waka's Remote Learning Programme starts today!

Teachers have worked hard to try and produce options that will work for every family's unique situation.

Please work with your child's Key Contact Teacher over the week to establish what works for you and your situation.

Priorities for our students during remote learning:

1. Wellbeing is at the forefront of our planning
2. Engaging with Teachers - Maintaining learning relationships
3. Learning Programmes - Accessing one, some or all of the learning programmes available
 - a. Google Classroom - Interactive Learning with Teacher and classmates
 - b. Phone, email or text learning tasks from Teachers
 - c. TV Education Learning Programmes - tuning in to the age appropriate lessons
 - d. Learning packs - Juniors packs taken home
 - e. Online education learning links from website

[Website Link](#) - Clicking on this link will take you to the Online Learning Website with all the links and information you need to select the learning programme that works for your family.

Our aim is to provide support with the learning that is naturally happening in the home, build on what parents have in place already for their children, ensure adaptability to the families situation and work flexibly with parents to support student learning.

Please work with us as we set up a programme that works for you and your family.

We understand that devices in the homes are limited. Our programme is NOT dependent on students having access to a device to participate - we will work flexibly with what resources your family has available. Please remember the devices that were borrowed from school are for the whole family to utilise to access the school links and not for individual children. None of the students need access to a device for long periods of time. Many of the tasks students will access online, by email or over the phone will be off line tasks.

The most important message for parents is again that there is nothing more important for our students than spending quality time with their families, feeling safe and supported during this unsettling time. Please do not feel any pressure from the school to deliver a school learning programme from home. The programmes teachers are offering are designed to complement and support the great things we know many parents are already implementing in their homes.

Please reach out to your child's Key Contact Teacher while we establish what works for you and your family.
